

CLIENT-SIDE PRODUCT WIREFRAMES • VERSION 2 • FINAL

BrandBridge AI

One account. Two professional modes.
Mutual-fit collaborations, guided by explainable AI.

REVISED IN V2

- Mutual fit shown as two numbers
- Metric freshness and provenance
- Eligibility made inspectable
- Wall kept, and given a clear job

NEW IN V2

- The entire creator journey
- The Wall as a peer community
- Knowledge and Proposals in depth
- Evidence, audit and state views

PACKAGE

- 30 frames
- Brand, creator and shared journeys
- 12 reusable components
- IIT Bombay AI/ML capstone

Two directions, one agreement

Both sides discover, both sides initiate, and both sides approve. The v1 map showed one path through the product; this one shows the reciprocal shape the architecture actually implements.

Twelve components, every screen

Build these first. Every frame that follows is an assembly of them, which is what lets one person cover twenty-plus screens in three weekends.

SCOREBAR

A component value with its numeral and band. Never a bar alone.

Content fit 96 STRONG

MUTUALFITBADGE

Two numbers and a word. Replaces the single percentage.

92 brand 87 creator Strong mutual

BrandBridge AI — client-side UI wireframe package v2

One registration, one or both profiles

A user creates one account and activates one or both professional profiles. The second can be added at any time from Profile — there is never a second login.

V2 CHANGE

One account may hold both roles, so the backend needs a `user_roles` table rather than a single role column. This is the schema change that has to land first.

Welcome to BrandBridge AI

Single registration for creators, brands — or both.

✓ Identity — 2 Select roles — 3 Build profiles

2 How will you use BrandBridge?
Choose one or both. Your feed and forms adapt to the active profile.

Brand ✓
Campaigns, creator discovery and
collaboration agreements

Creator ✓
Portfolio, ranked opportunities and
tailored proposals

Both selected — two professional profiles under one verified identity. You will build the creator profile first and can add the brand profile whenever you like.

The Wall is not the matcher

Posts are a community and discovery surface. **Wall content never feeds the ranking model** — matching stays on structured profile, rate and campaign data, so scores remain auditable and nobody can post their way up a shortlist.

Protein Crunch Launch

Aurum Foods · food & wellness · published 16 Oct · closes 14 Nov

92 brand fit | 87 your fit

“We are launching a high-protein millet snack for fitness-focused young adults in India. We want credible nutrition voices, not reach for its own sake.”

What they are asking for

Deliverables

1 Instagram Reel + 2 Stories, or 1 YouTube Short

Budget per creator

up to ₹18,000 · paid, no barter component

Target audience

18–35, India, English or Hindi

Timeline

Concept 20 Oct · final content 5 Nov · one revision round

Usage rights

30-day organic reposting · paid amplification needs separate approval

Content rules

no weight-loss claims

no medical claims

paid disclosure required

Ask about their guidelines

GROUNDED IN 2 DOCUMENTS

Can I say this snack helps with weight loss?

No.

The brand guidelines prohibit weight-loss and medical claims, and require a visible paid-partnership disclosure on every deliverable.

“Creators must not make weight-loss, therapeutic or medical claims about any Aurum product...”

aurum-brand-guidelines-2026.pdf · page 4 · similarity 0.87

AGAINST YOUR RATE CARD

1 Reel	₹7,000
2 Stories	₹5,000
Your total	₹12,000
They offer	₹18,000

+₹6,000 headroom to negotiate deliverables or price.

Checks against your rules

✓ food — on your accepted list

✓ ₹18,000 clears your ₹5,000 floor

✓ paid model — matches preference

✓ no medical claims — matches your own restriction

! 5 Nov deadline overlaps one blocked week

BrandBridge AI — client-side UI wireframe package v2

13 Campaign detail — creator view

Collaboration forms adapt to the initiator

A brand sends a campaign invitation; a creator sends a capability-led proposal. Both write the same record with a different `initiated_by` value, and both start from transparent terms.

V2 CHANGE

Mutual fit is two numbers, and the creator's form shows their own rate-card total beside the quote field. Negotiating with your own pricing invisible was the oddest gap in v1.

Brand starts collaboration

Create campaign

From idea to creator-ready brief in three approved steps. Every extracted field is reviewed by you before it filters anyone out.

1 Brief

2 Confirm requirements

3 Review & publish

Campaign name

Protein Crunch Launch

Objective

Niche credibility

Changes which signals weigh most in ranking

Tell us what you need — plain language is fine

High-protein millet snack. India. Fitness creators. Reels and Shorts. Budget ₹50K total, up to ₹18K per creator. No unsupported medical claims.

Your original wording is kept unchanged, whatever the parser produces.

Extract with AI →

Optional — attach knowledge for grounded answers

aurum-brand-guidelines-2026.pdf✓

protein-crunch-product.pdf✓

+ Upload

Creators can ask questions against these documents, and answers always cite the page. Documents never affect ranking.

What happens next

The parser turns your text into structured fields and gives each one a confidence score. **It does not save anything as a requirement.** You review every field on the next step, and only what you confirm is used to filter creators.

Prefer to skip the AI?

Fill the requirement form directly. The whole campaign flow works without a single model call.

Enter requirements manually

Objective changes ranking

Awareness favours reach · **niche credibility favours topic and engagement** · direct response favours audience fit · UGC favours content style.

Tested against labelled data, not assumed.

DISCOVER > PROTEIN CRUNCH LAUNCH

Eligibility audit

Hard requirements are applied in the database before anything is scored. No similarity score can override them — and every decision is recorded with its rule version.

92 creators excluded

rule set eligibility-v1 · evaluated 18 Oct 11:02

RULE	COUNT	TYPICAL DETAIL	LOOSEN BY
Geography	38	Creator country is not India	Adding a second market
Budget	24	Lowest qualifying rate ₹19,500 > ₹18,000 cap	Raising the cap to ₹25K recovers 52
Platform	14	No active rate on Instagram or YouTube	Adding a platform
Content type	9	Does not produce Reels or Shorts	Allowing carousels or long video
Creator exclusion	5	Creator excludes the food category or this brand	Cannot be loosened — their choice
Availability	2	Blocked for the whole delivery window	Moving the deadline

NEEDS YOUR REVIEW · 7

Ambiguous competitor association

The evidence does not show a **paid** partnership. An organic mention or comparison is never treated as sponsorship, so nobody here was excluded automatically.

CREATOR	COMPETITOR	EVIDENCE	CONFIDENCE	Keep	Exclude
Rohan Frames	NutriMax	“tried the new NutriMax bar this week” — no disclosure tag	0.41	Keep	Exclude
Dev Malhotra	NutriMax	#ad post 214 days ago — outside the 180-day window	0.88	Keep	Exclude

Why this screen exists

An empty result list with reasons is debuggable. An empty result list without them looks broken.

It also makes rule accuracy and false-exclusion rate measurable — both are reported metrics in the evaluation, and they cannot be reported if the decisions were never stored.

Recovered if you loosen

Budget → ₹25K

+52

+ Carousel

+18

+ Bluesky

+11

Loosening never overrides a creator's own exclusions.

BrandBridge AI — client-side UI wireframe package v2

19 Eligibility audit

Why this match?

The prose is the convenience. The component scores and the dated evidence underneath are the actual explanation — and they still work with the language model switched off.

NEW IN V2

Requirement FR-08 had no home in v1. Every number shown here was persisted before the response was built, so this panel and the audit trail can never disagree.

MS

Mira Sen

Sustainable lifestyle · Mumbai · matched to Protein Crunch Launch

96 brand fit

91 creator fit

Strong mutual

Mira's sustainable-food content closely matches the brief, and 68% of her known audience sits inside your 18–35 target. Her Reel rate of ₹7,500 is within your ₹18,000 cap, and she accepts food and wellness campaigns. One limitation: she has no prior collaboration history on this platform, so reliability is inferred from profile completeness rather than past deals.

Reciprocal score

harmonic mean · xgb-2026-10-17 · feat-v1

brand **0.96** × creator **0.91** → **0.93**

A one-sided score of 0.96 alone would have hidden the 0.91 — and a low creator side is what predicts a decline.

Evidence behind the score

PASSED	All 5 hard rules · eligibility-v1
CATEGORY	Sustainable food matches the brief · creator
AUDIENCE	68% inside the 18–35 band · creator · 1 Sep
BUDGET	Reel ₹7,500 vs ₹18,000 cap · live card
ENGAGE	6.8%, 45 posts · Instagram API · 16 Sep
SEMANTIC	0.94 · bge-small-en-v1.5
PREFER	Accepts food and wellness · creator
WARNING	No prior collaboration history
WARNING	Audience self-reported, not verified

What the model was given

Only the evidence list above, as a typed object — never the creator record or the database. Any figure it invents triggers a fallback to this panel alone.

Protein Crunch Launch

Aurum Foods · niche credibility · closes 14 Nov

DRAFT · NOT SENT

92 brand87 you

AI draft — yours to change

PROPOSAL - DRAFT - V1Regenerate

62% of my recent content is nutrition-led and my audience is 82% India, aged 18–30 — the band your brief targets. I would open with a real weekday-snack routine rather than a product shot, so the millet angle lands as a habit rather than an ad.

Proposed: 1 Reel + 3 Stories across one week, concept by 20 October, final 5 November. I disclose every paid partnership and I will not make weight-loss or medical claims, which matches your guidelines.

Deliverables

1 Reel + 3 Stories

Your quote

₹ 22,000

Available from

20 Oct 2026

Your card: 1 Reel ₹7,000 + 3 Stories ₹7,500 = ₹14,500. You are quoting ₹7,500 above card, inside their ₹18,000 ceiling — expect a counter around ₹18–19K.

Nothing is sent until you press Send. The AI cannot submit on your behalf.

Why this match?

Terms, version by version

TERM	V1 · YOU · 16 OCT	V2 · AARAV · 18 OCT	DELTA
Amount	₹18,000	₹22,000	+₹4,000
Deliverables	1 Reel + 2 Stories	1 Reel + 3 Stories	+1 STORY
Model	Paid	Paid	SAME
Concept due	20 Oct	20 Oct	SAME
Final content	5 Nov	8 Nov	+3 DAYS
Usage rights	30-day organic	30-day organic	SAME
Revisions	1 round	1 round	SAME

AGAINST THEIR PUBLISHED CARD

1 Reel ₹7,000 + 3 Stories ₹7,500 = ₹14,500 published. v2 asks ₹7,500 above their card — and ₹4,000 above your ₹18,000 per-creator cap.

v2 exceeds the confirmed campaign budget cap of ₹18,000. Accepting will prompt you to raise the cap for this campaign, which is recorded against the requirement version.

Thread

AF

You · invitation · 16 Oct

Your recent millet recipe series is exactly the register we are after — credible, practical, no hype.

AF

Aarav Fitness · counter · 18 Oct

Three Stories lets me build the routine across the week rather than one drop. I have a shoot on 4 Nov, so 8 Nov is safer for the final cut.

⚠

System · 18 Oct

Guideline check re-run against v2 — no conflicts with the uploaded brand guidelines.

23 Proposal detail & versions

Agreement drafted from approved evidence

The draft is readable, editable and never self-executing. Each clause links back to the source it was grounded in, and both parties must approve inside the workspace.

V2 CHANGE

Clauses now expand to the retrieved guideline text with its page number. This is the clearest single demonstration of grounded generation in the product.

AI-GENERATED DRAFT • HUMAN APPROVAL REQUIRED

Creator Collaboration Agreement

Protein Crunch Launch • Aurum Foods and Aarav Fitness • version 1

1. Campaign objective

Credible short-form content for India-based fitness audiences aged 18–35.

2. Deliverables

One Instagram Reel and three Stories. First concept due 20 October 2026; final content 5 November 2026.

3. Compensation

₹22,000 payable within 15 days of final content approval.

↳ from proposal version 2

4. Content standards

Paid-partnership disclosure is required on every deliverable. Weight-loss, therapeutic and medical claims are prohibited.

“Creators must not make weight-loss, therapeutic or medical claims about any Aurum product. All paid collaborations must carry a visible disclosure.”
aurum-brand-guidelines-2026.pdf • pages 4 and 7

5. Usage rights

30-day organic reposting rights. Paid amplification requires separate written approval.

↳ guidelines p.11

6. Review and cancellation

One revision round. Approved completed work remains payable if the campaign is cancelled.

Grounded in

The confirmed campaign requirements, proposal version 2, and two passages retrieved from the brand guidelines. No clause was written from the model's general knowledge.

no medical claims 30-day rights

disclosure required

Brand approval

CONFIRMED Aarav Mehta • 18 Oct

Creator approval

AWAITING RESPONSE

Both approvals are required. The agreement has no effect until then.

Not self-executing

The AI drafted this text. It cannot approve it, send it, or change its own status. Either party can request changes, which creates a new version.

Scope rules

FILE	SCOPE	WHO CAN QUERY	PAGES	CHUNKS	STATE
aurum-brand-guidelines-2026.pdf 12 Oct · 1.4 MB	BRAND-WIDE	You + invited creators	14	41	READY
protein-crunch-product.pdf 16 Oct · 0.6 MB	CAMPAIGN	Collaborators only	6	18	READY
disclosure-policy-in.pdf 12 Oct · 0.2 MB	BRAND-WIDE	You + invited creators	3	9	READY
festive-campaign-brief.pdf uploading · 0.9 MB	CAMPAIGN	Not shared yet	22	9 / 60	CHUNKING
legacy-styleguide-2024.pdf 4 Oct	ARCHIVED	Nobody — excluded from answers	18	—	RETIRED

Retiring a document removes it from retrieval at once but keeps past answers and their citations intact.

What happens to an upload

✓ Stored — checksummed, never rewritten

✓ Text extracted per page — 22 pages

● Chunked — 800 characters, 120 overlap · 9 of 60

4 Embedded — 384 dims, page number kept

5 Queryable — appears in answers with citations

Runs in the background. A half-ingested document is simply not retrievable yet.

Chunk inspector

AURUM-BRAND-GUIDELINES · P. 4

chunk 11 · 780 chars

“Creators must not make weight-loss, therapeutic or medical claims... comparative nutrition statements are permitted where they cite the published panel...”

chunk 12 · overlaps 11

“...cite the published panel. Allergen claims must reproduce the pack wording verbatim...”

Overlap keeps a sentence split across a page boundary retrievable — and inspecting chunks is how you debug a wrong-feeling answer.

Guidelines, briefs or product sheets · up to 10 MB

What documents are for

Answering questions about unstructured policy, and grounding agreement drafts. **They never influence ranking** — matching uses structured marketplace data, and mixing the two would make scores impossible to audit.

Ask across your documents

2 DOCUMENTS IN SCOPE

AM

Can a creator say this snack helps with weight loss?

AI

No. The brand guidelines prohibit weight-loss, therapeutic and medical claims, and require a visible paid-partnership disclosure on every deliverable.

“Creators must not make weight-loss, therapeutic or medical claims about any Aurum product.”
aurum-brand-guidelines-2026.pdf · page 4 · similarity 0.87

“All paid collaborations must carry a visible disclosure in the first frame or caption.”
aurum-brand-guidelines-2026.pdf · page 7 · similarity 0.74

AM

What is our standard payment term in Germany?

AI

Not covered in your uploaded documents. I did not find a passage about payment terms outside India, so I have not answered from general knowledge. Upload the relevant policy and ask again.

Refusing when nothing relevant is retrieved is deliberate. A confident answer without a source is the failure mode that makes retrieval worthless.

Ask another question...

Brand guidelines 2026

14 pages · brand-wide

Protein Crunch product

6 pages · this campaign

Disclosure policy

3 pages · brand-wide

Scoped to this collaboration

You can only query documents this brand shared with you, for this campaign. Other brands' knowledge is invisible — every retrieval is filtered by owner before the model sees anything.

Good questions to ask

What claims are prohibited?

How must I disclose?

What are the usage rights?

Is there an allergen wording rule?

Your questions

3 asked · 2 pinned to your proposal

AF

Can I say this snack helps with weight loss?

AI

No. Weight-loss, therapeutic and medical claims are prohibited. Comparative nutrition statements are allowed only if they cite the published nutrition panel.

“Creators must not make weight-loss, therapeutic or medical claims about any Aurum product.”

Brand guidelines · page 4 · similarity 0.87

Pinned to proposal

Open page 4

Asked 18 Oct

AF

How long do they hold usage rights, and can they run paid ads?

AI

30 days of organic reposting. Paid amplification is not included and needs separate written approval from you.

Brand guidelines · page 11 · similarity 0.82

Pin to proposal

AF

What did they pay other creators on this campaign?

AI

Not something I can answer. That is commercial data about other creators, not brand knowledge. The published budget range is on the campaign page.

Refusal is a design choice. Retrieval answers questions about documents; it never reaches into marketplace records.

Ask about the guidelines, product or usage rights...

Ask

BrandBridge AI — client-side UI wireframe package v2

28 Knowledge — creator side

Four states, not one happy path

v1 showed every screen fully populated. These are the other four states each list needs — and the degraded state is what makes a rate-limited demo look designed rather than broken.

Empty

FIRST RUN

No opportunities yet

Add a rate card and your accepted categories, and campaigns will start matching within minutes.

Complete my profile

An empty state always names the next action. Never a shrug.

Loading

RANKING IN PROGRESS

Applying eligibility rules to 340 creators... step 2 of 5

Ranking has five visible stages. A named stage beats a spinner.

Degraded

THE ONE THAT MATTERS

Live metrics unavailable. Instagram's API is rate-limited right now, so figures below are from 16 September. Everything else on this page is current.

MS

Mira Sen

84K followers · 6.8% engagement

96 brand

91 creator

● cached · 32 days old

Matching, filtering and proposals all continue to work — only the freshness of provider numbers changed.

Never hide staleness. Label it and carry on.

Error

RECOVERABLE

We could not generate recommendations. The ranking service did not respond within 30 seconds. Nothing was saved and your campaign is unchanged.

Try again

Use the last ranking from 16 Oct

correlation_id a41f-7c2a-9de3

Quote this reference if you report the problem.

Say what went wrong, what was not lost, and what to do next.

What changed, and why

Ten revisions and twelve new screens, each traceable to a requirement in the build manual. Frame numbers below refer to this package.

REVISED FROM V1

The Wall kept, and given a clear job frames 10, 11

It is a peer community — brands and creators sharing ideas, open calls and results, and following each other. Two rules make it safe: wall content never feeds the ranking model, and a thread converts into a normal proposal rather than a side channel.

Home became an activity digest frames 09, 15

Separate from the Wall: assembled from campaigns, matches and proposals you already store, so the two surfaces do different work.

One percentage → two numbers frames 12, 14, 18, 20

A single “94% mutual fit” contradicted the principle that recommendations expose components, not a score.

Freshness and provenance on every metric frames 07, 18, 20, 29

“84K followers” without a date reads as current truth.

Eligibility made inspectable frames 18, 19

Rule accuracy and false-exclusion rate are reported metrics, so the decisions have to be visible.

Bars carry numerals and bands frames 18, 20

Rate card visible while quoting · agreement clauses expand to source frames 14, 24

NEW IN V2

The whole creator journey frames 06–13

Nine of eleven v1 frames were brand mode. Half of a two-sided product was undrawn: profile, rate card, preferences, connected accounts, opportunity feed, campaign detail.

Proposals in depth frames 21, 22, 23

Creator drafting with the evidence the draft used and a guideline check; a role-aware inbox; and a version-by-version term comparison that flags when a counter breaks the campaign budget cap.

Knowledge in depth frames 26, 27, 28

The library with per-document scope and retirement, the five-stage ingestion pipeline, a chunk inspector for debugging answers, and the creator-side view where answers pin to a proposal and out-of-scope questions are refused.

Confirm requirements frame 17

Named in the v1 stepper but never drawn — the screen that enforces “the brand confirms before anything filters”.

Why this match? frame 20 · **Eligibility audit** frame 19

Empty, loading, degraded and error states frame 29

Component kit frame 03

Twelve components. Every screen is an assembly of them.
